

PACIFIC EDGE CONSULTANCY

Strategic Technical Leadership for the Pacific

WHO WE ARE

Pacific Edge Consultancy and Synapsec Global form a strategic partnership delivering world-class project management, infrastructure advisory, cybersecurity, and digital transformation solutions tailored for the unique challenges of the Pacific region.

Combining decades of expertise across infrastructure delivery, business strategy, and technology innovation, we provide Pacific governments and enterprises with the technical leadership needed to navigate complex development challenges and seize emerging opportunities.

OUR ADVANTAGE

- **Pacific-First Approach:** Deep regional knowledge, local partnerships, and cultural understanding
 - **Integrated Expertise:** Project management, infrastructure, cybersecurity, and digital transformation under one roof
 - **Proven Track Record:** \$2B+ in delivered projects across NZ, Australia, and the Pacific
 - **Strategic Partnerships:** Regional infrastructure contractors and technology partners
 - **Data Sovereignty:** Pioneering sovereign AI infrastructure keeping Pacific data in Pacific hands
-

WHY PARTNER WITH US

Regional Expertise

Deep understanding of Pacific regulatory environments, cultural contexts, and stakeholder dynamics that international firms often lack.

Integrated Solutions

Single point of contact for complex projects requiring both infrastructure delivery and technology/cybersecurity expertise.

Proven Delivery

Track record of \$2B+ in successfully delivered projects across diverse sectors and geographies.

Strategic Networks

Established relationships with Pacific governments, regional contractors, and international development partners.

Innovation Leadership

Pioneering sovereign AI infrastructure and data sovereignty solutions specifically designed for Pacific contexts.
